Executive Order
28th Session

SB 28-7 Reintroduction

By the authority vested in me as President of the Student Government Association by the constitution and bylaws of the Student Government Association, I, Connar Allen, for the purpose of maintaining the legitimacy of the Student Government Association’s actions and legislation, and to resolve the discrepancies that arose during the February 4, 2019 Student Senate meeting, order that the following actions take place:

SB 28-7, the Election Code Bill, shall be invalidated and returned, in its original format, to the Student Senate, which shall appear as the first item under “Old Business” on the February 11, 2019 agenda.

The Student Senate made changes to SB 28-7 that make the Election Code function in an unintended way, and the best course of action is to take this legislation back to the senate for further review rather than attempt to implement the bill as written.

It is so ordered,

Connar Allen
Student Government Association President
