Pocket Points Resolution

A resolution supporting the use of the Pocket Points Mobile app.

WHEREAS(1):

Pocket Points is a mobile app that incentivizes students to not use their phones during class. Once students open the Pocket Points app and lock their phone, they start to accumulate points. The points they accumulate can be used towards discounts on food, clothes, sports, etc. and,

WHEREAS(2):

The Student Government Association has an Academic Affairs committee. Academic Affairs committee concerns the performance of students in academics. By providing an incentive for students to eliminate the distractions of their cell phone during class, the students can better pay attention in class. When students can pay attention in class without distractions, their retention of the material improves, and a greater likelihood of higher grades occurs, and
